

1 December 1952

MEMORANDUM FOR: Director of Central Intelligence

**SUBJECT:** Comment on [ ] Accounting in  
Memorandum of November 5, 1952 from  
Deputy Director (Plans) on This Subject

1. [ ] is of the opinion in which I concur that you should limit your approval of this accounting to the sum not supported by receipt, a net total of [ ]

25X1

2. The above amount is arrived at by estimate for the purpose of balancing an account totaling [redacted] the total sum handled by the subject from 1 October 1949 through 31 October 1951. The rest of the account is substantiated either by receipts fully meeting regulations or by receipts deficient in that they do not show the purpose for which the recipient obtained the funds, but as to the latter, Deputy Director (Plans) has certified that under the operational circumstances involved, this procedure was satisfactory. Under existing regulations, Deputy Director (Plans) has such authority.

25X1

3. The expenditures which are not supported by receipt and which were estimated by people conversant with conditions in the area cover the following items:

SECRET

Approved For Release 2003/09/02 : CIA-RDP80R01731R001700110037-6

25X1

25X1

As these estimates, if accepted, would have the Agency owe money, Deputy Director (Plans) arbitrarily recommends the disallowance of \$2,756.86 to reduce the estimates to an amount which would exactly balance the account.

4. The above estimates all seem reasonable to me except (d) and (e) which seem high and (g) which seems low.

Recommendation:

That you approve the allowances of the estimated expenses in the net sum of

25X1
